

**Day 4:** We woke again to a nice German breakfast. The breakfast appears to be the most popular meal among the team. After breakfast we had another full practice then back to the hotel to go to our next sightseeing venture. We went on a two hour drive then an hour hike to arrive to the much appreciated Castle Neushwanstein. The team enjoyed touring the interior and exterior of the castle seeing the life's work of a selfish king. After the castle we traveled back to the hotel then once again ended another great German day.
